

April 5th

- Topic: Coaching for Jurisdiction Success

April 12th

- Topic: The Current Legal Landscape of MAT in Jails
- Description: Emily Archer from GOCPYVS discussed the new RSAT funding opportunity, more information is [at this link](#). [Keegan Warren, JD, LLM](#) from HMA lead a discussion on the legal imperatives to providing MAT in justice involved settings.

April 19th

- Topic: Health Insurance Programs and Medicaid Enrollment for Returning Citizens
- Description: [Joseph Poindexter](#) provided an overview of HCAM's Health Insurance programs, including Medicaid best practices for working with returning citizens and resources for jails.

April 26th

- Topic: The Case for MAT for Custody Leaders and Staff
- Description: This sessions learning objectives were to describe the value of providing evidence-based treatment for SUD during detention, and identify at least two common challenges and peer implemented solutions to securely provide MAT in correctional facilities.

May 3rd

- Topic: Screening and Assessment with Evidence Based Tools- How and Why to Screen
- Description: This discussion was presented by Drs. [Shannon Robinson](#), [Margaret Kirkegaard](#), and [Jean Glossa](#). This sessions learning objectives were to describe how state and local jurisdictions can coordinate in improving care for justice-involved individuals with SUD, and compare and contrast various SUD screening and assessment tools for use with justice-involved individuals

May 10th

- Topic: Administration Integrity: Managing Diversion Risk with MAT
- Description: This discussion was presented by Drs. [Shannon Robinson](#) and [Marc Richman](#). This session's learning objective was to describe techniques for limiting diversion and improving medication integrity

May 17th

- Topic: Data Collection for HB 116- Data tutorial
- Description: This discussion was presented by Rachel Kesselman Leonberger from the Governor's Office of Crime Prevention, Youth, and Victim Services. This sessions learning objectives were to discuss how data collection and reporting can contribute to quality improvement in care of justice-involved individuals with OUD/SUD and supports sustainability, describe the statutorily mandated data reporting requirements and their purpose in improving statewide outcomes, and define key required data point measures to support accurate data reporting.

May 24th

- Topic: Peer Recovery Supports
- Description: This discussion included a presentation from Emily Keller, Maryland's Special Secretary of Opioid Response. As well as Jennifer Custer Certified Peer Recovery Specialist from Washington County Sheriff's Office. This sessions learning objectives were to outline options for engaging peer recovery supports in jails, articulate the value of peer recovery supports for sustaining recovery, and identify lessons learned and best practices in supporting peer recovery support professionals in jails

May 31st

- Topic: The Current Legal Landscape for MAT in Jails: What do jail and county leaders need to know to manage risk?
- Description: This was presented by [Keegan Warren](#) from HMA. This sessions learning objectives were to describe the impact of legal requirements related to MOUD on clinical care for incarcerated people with SUD, identify individual legal responsibility in assuring the standard of care is met, and compare the costs of liability with funding the mandate.

June 7th

- Topic: MOUD/ TeleMAT
- Description: This was presented by Drs. [Shannon Robinson](#) and [Eric Weintraub](#). Learning objectives of this session were MAT 101 Case studies; compare/contrast of the three FDA-approved medications for the treatment of opioid use disorder (OUD) including the indications for use, side effects, and considerations for use during incarceration.

June 14th

- Topic: Data Requirements and definitions from OUDETA (2019)
- Description: This week's topic was presented by [Nathan Kemper](#), Director, Maryland Statistical Analysis Center. A key takeaway from today's session was the need to have a smaller discussion around data, including how to truly de-identify patients and assign an ID to a patient that is HIPAA compliant, easily track for repeat customers of the jail-hard

for the big jails, and how assessments vs interventions vs just standard clinical visits are counted. If you would like to be a part of this discussion, please respond to this email.

June 21st

- Topic: Clinical Conversation on Best Practices in Withdrawal Management
- Description: This was presented by [Dr. Shannon Robinson, MD](#). This sessions learning objectives were to describe evidence-based, clinical management of opioid withdrawal, compare and contrast use of buprenorphine versus comfort medications for withdrawal management, describe management of concomitant opioid and alcohol withdrawal, consider potential medical and behavioral complications for withdrawal management of opioid use disorder, and discuss strategies for implementing clinically appropriate care to support care in county jails.

June 28th

- Topic: Program wrap-up
- Description: Best practices across jurisdictions were discussed and shared.
